

## DOUBLE YOUR GIFT \$25,000 CHALLENGE GRANT!

Three donors have created a \$25,000 challenge grant to help us meet our \$705,000 fundraising goal *before VIM's year-end on March 31, 2012.*

In the last couple years we've had to consider cutting programs a few times because we were in danger of not making ends meet. Thankfully our generous friends provided the extra support necessary to get us over the hump and avoid that outcome.

But, **we are now in VIM's most challenging fundraising year since the clinic opened in 2004**, and we're not sure we can avoid program cuts this year as **we are facing a \$100,000 shortfall.**

We have amazing doctors, nurses and other volunteers ready to donate their time, but if we can't raise the funds needed to cover our overhead costs and keep our programs running, a chunk of that talent and energy will be wasted.

***Whatever you can do to help us sprint to the finish this year will be especially appreciated.***
